Dr. C.B.Powell
c/p Amsterdam News
New York City

Dear Doctor:

I am sorry I was unable to come to see you again to get more information, but my stay in New York was shorter than I had planned.

If it is not practicle to write the information I am asking for I will come to see you on my next trip to the big city. However I am interested enough to want to know a little more about "Brown Bomber Bread". I would like to know just what I would be receiving for a Thousand Dollars. and what I could reasonably expect in return. I do believe the propersition has wonderfull possibilities.

What are the chances of it expanding into New Jersey? Maybe I could find an outlet for some of my excess energy. Ha'

Regardless of everything, I feel that the venture is one of the most commendable of all Negro ventures, and I sincerely wish you success.

Would be glad to hear from you soon.

Very Truly Yours

P.S.

Just received notice of our meeting. It is being held in Philadelphia Feb. 2nd.
